

Posters (Room D)

Tuesday 25
10h10-10h40 and 16h00-16h30

	<p>A. Archid <i>A block J-Lanczos method for Hamiltonian matrix</i></p>
	<p>D. Barrera <i>Boolean sum-based differential quadrature</i></p>
	<p>M. El Hiwi <i>Hybrid model for valuation of credit derivatives with stochastic parameters</i></p>
	<p>M. Sadek <i>A minimal residual method for large scale Sylvester matrix equations</i></p>
	<p>Y. Bentaleb <i>Blood flow modeling by wavelets in the presence of a stent</i></p>
