

Session A3 (Room A)

Monday 24
16h30-18h10

Chairman: B. Beckermann

16h30-16h55	A. Matos <i>Some results on the stability of Padé approximants</i>
16h55-17h20	C. Anton <i>Expansion of the global error for symplectic schemes for stochastic Hamiltonian systems</i>
17h20-17h45	R. El-Moallem <i>RRE applied on nonsymmetric algebraic Riccati equations</i>
17h45-18h10	M. Popolizio <i>Accelerating strategies for the numerical approximation of functions of large matrices</i>
18h10-18h35	P. Zaspel <i>Multi-GPU parallel uncertainty quantification for two-phase flow simulations</i>
