

Session A5 (Room A)

Tuesday 25
10h40-12h45

Chairman: M. Rozložník.

10h40-11h05	M.E. Hochstenbach <i>Polynomial optimization and a Jacobi-Davidson type method for commuting matrices</i>
11h05-11h30	S. Belhaj <i>Computing the inverse of a triangular Toeplitz matrix</i>
11h30-11h55	M. Mitrouli <i>On efficient estimation of matrix inverse</i>
11h55-12h20	C. Mertens <i>Multiple recurrences and the associated matrix structures stemming from normal matrices</i>
12h20-12h45	A. Ohashi <i>On computing maximum/minimum singular values of a generalized tensor sum</i>
