

Session A7 (Room A)

Tuesday 25
16h30-18h10

Chairman: J. Erhel

16h30-16h55	Y. Notay <i>A new analysis of block preconditioners for saddle point problems</i>
16h55-17h20	P. Tang <i>Subspace iteration with approximate spectral projection</i>
17h20-17h45	L. Sorber <i>Exact line and plane search for tensor optimization by global minimization of bivariate polynomials and rational functions</i>
17h45-18h10	A. Khazari <i>Gradient observability and sensors: HUM approach</i>
