

Session A9 (Room A)

Wednesday 26
10h40-12h20

Chairman: K. Jbilou

10h40-11h05	M. Ferranti <i>Eigenvalue computations of normal matrices via complex symmetric form</i>
11h05-11h30	R. Vandebril <i>Approximating extended Krylov subspaces without explicit inversion</i>
11h30-11h55	T. Mach <i>Inverse eigenvalue problems linked to rational Arnoldi and rational (non)symmetric Lanczos</i>
11h55-12h20	N.D. Christov <i>Condition and error estimates in Kalman Filter design</i>
