"Dutch-French Porous Media Day"

on October 18-19 at the Université du Littoral,
Calais, Centre Universitaire de la Mi-voix, salle B014

Organizers: C.J. van Duijn (Eindhoven), A. Mikelic (Lyon), I.S. Pop (Eindhoven), C. Rosier (Calais -local organizer)

Wednesday October 18

- **14h00-14h45 S. M. Hassanizadeh (Utrecht University)**"Non-equilibrium processes in theories of upscaled flow and transport in porous media".
- **15h00-15h45 A. Mikelić (Université Lyon I)**"Rigorous upscaling of the reactive flow through a pore, under dominant Peclet and Damkohler numbers for a large class of chemical reactions"

Coffee Breack

- **16h30-17h15 S. Pop. (Eindhoven University)**

Thursday October 19

- **10h00-10h45 T. Van Noorden (Eindhoven University)** "Modelling crystal precipitation and dissolution at the pore scale"
- **11h00-11h45 C.J. Van Duijn(Eindhoven University)**

Lunch
